New Business:

DRC 2010-00080 Nicholas APN 091-326-054 – 1.12 Acre Modification to Land Use Permit (we just received this via e-mail – no time to contact agent) Will pass out some info at meeting

The PICs (Process Improvement Committees) made recommendations to the Supervisors last week (Item G-1). There were proposed changes for how CACs were formed and how reps were to be chosen (which the Supervisors rejected), but there were also proposed changes about how anyone could protest a planning decision. (They introduced the notion of "standing", saying that if someone had not attended the Planning Commission hearing, they could not file a protest later; and if they did attend and protest at the PC, they could not introduce new reasons for protesting later.)

Old Business:

Excleron Follow up – DEIR is out next week and SCAC input is requested by HVA

Updates:

The Land Use & Circulation Element update will be coming back to us in September and October. (Discuss the implications of some of the changes proposed.)

The County's RMS (Resource Management Survey) is to be reorganized, with the ASRs (Annual Survey Reports) to change from being done annually to something less frequent.
