Public Comment:

Old Business

1) Status of Willow Road, Phase II project.

The first concrete course for the southbound bridge has been placed. Work continues on drainage enhancements. Rerouting and protection of the oil lines and the State waterline has been completed. The artwork on retaining wall 1-B is now visible from the northbound freeway.

2) Field trip to Willow Road Interchange.

Several members of the SCAC and T&CC visited the construction site. Mike Zenn, Resident Engineer, Brent Fogg, Construction Foreman for Granite and Dale Ramey provided information about the ongoing construction activities.

3) There has been quite a bit of enforcement at Tefft and Mary. Has anyone noticed any improvements?

People have noticed and do applaud the increased enforcement. It is a little early to determine how much it has helped.

New Business

1) Limited sight distance at Grande and Frontage and Shifrrar and Verano.

Ryan Chapman will look at these intersections.
