- 5 Speeding on Stanton. What is the status of this? According to the August 18<sup>th</sup> and the December 10<sup>th</sup> minutes Public Works indicated that centerline stripping and fog stripping might provide traffic calming effects. Furthermore, to make the speed limit enforceable a speed study would have to be conducted. Public Works has indicated that they will take on this responsibility – Dale Ramey
- 6 Residents near the intersection of Glen Haven and Hettrick have indicated that there are an inordinate number of accidents at that intersection. The most recent accident, a serious one, was on February 8<sup>th</sup>. There exists a yellow cautionary curve sign indicating a safe speed of 10 mph. At the intersection there is a turning maneuver of more than 90 degrees. Residents indicated a need for a flashing LED warning sign and have talked to Public Works. To date, there has been no action from Public Works
- 7 NCAC motion passed: Request that the Board of Supervisors direct staff to explore a means of charging a fee to fund traffic modeling. Such fee shall be paid by the developer for any proposal requiring a general plan amendment. These funds shall be used to update and maintain the appropriate County traffic models and related geographic information systems and determine the cumulative traffic effects of the proposal throughout the traffic model area.
- 8 Area wide 40 mph speed limit – Mike Winn
