

Agenda
Traffic and Circulation Committee Meeting
Thursday, May 9th, 2019, at the NCSD Board Room at 148 South Wilson

10:00 am to Noon

Public comments:

Old Business:

1. Where are we with the Tefft Interchange improvements – Public Works
2. Update on the parking problem on the Black Lack Canyon Drive approaching Via Concha – Public Works
3. Could you talk about the next steps and the futuring of the El Campo closure? WE know it is a SLOCOG project and is not an active element of the Regional Transportation Plan nor is it part of the South County project list but, it is a County right-of-way even though the Eastern portion is within the Arroyo Grande sphere of influence.– Public Works

New Business

1. There are concerns expressed by Trilogy residents about the truck route designation for Mesa Road. What is entailed in changing the 'Truck Route' designation - Public Works
2. Though our County Supervisor is not committed either way to the State Parks proposal for the Oso Flaco Lake portion, there is a County right-of-way and road extending from SR 1 to the existing boardwalk at the lake. State Parks will probably be required to improve the intersection at SR 1 and widen Oso Flaco Road. I don't think the RTP or the South County Plan include any funding for those purposes. What involvement will Public Works have with respect to the improvements and review of the Transportation and Circulation element of the EIR – Public Works
3. Additional information from Public Works

Next Meeting June 13th, 2019
